

# CONTROLLED SUBSTANCE ORDERING SYSTEM (CSOS)

## ***Did You Know?***

*CSOS can save half the time it typically takes to order controlled substances using manual 222 forms.*

## Online Ordering System

*CuraScript SD has integrated with the DEA's Controlled Substance Ordering System (CSOS) which allows for a secure electronic transmission of Schedule I-V controlled substance orders*

### 01 | CSOS Online by CuraScript SD

Utilizing the DEA's Controlled Substance Ordering System software integration, CuraScript SD offers the availability of electronic 222 Schedule II narcotics ordering on [www.curascriptsd.com](http://www.curascriptsd.com). We understand how an unexpected delay receiving pharmaceutical product can impact your practice's ability to administer patient care. CuraScript SD's CSOS Online supports overall practice efficiency, profitability and the following benefits:

- **Ordering Flexibility:** CSOS transactions are the only option for electronic ordering of Schedule I and II controlled substances.
- **Quicker Transactions:** CSOS certificates contain the same identification information as DEA Form 222, which allows for timely and accurate validation.

- **No Item Line Restrictions:** Integrated Ordering means you can combine your purchasing tasks into a single transaction.
- **Decreased Cost:** Order accuracy and decreased paperwork result in a lower transaction cost.

### 02 | CuraScript SD's CSOS Online Process

- **Apply for a DEA License:** Purchaser enrolls with the DEA (typically a 4-6 week process). After approval, the Purchaser is issued their CSOS Certificate, which eliminates the paper 222 form.
- **CuraScript SD Onboarding:** CuraScript SD CSOS Online Administrator will be available to review the onboarding process.
- **Submit e222 Order:** The Purchaser places an electronic 222 order with CuraScript SD, and digitally signs the order using their CSOS online certificate.
- **Validation Process:** After the order is digitally signed and submitted, CuraScript SD does a CSOS Online Certificate validation with the DEA.
- **Fulfillment:** CuraScript SD ships the order to the Purchaser. The transactions of controlled substances are reported to the DEA by CuraScript SD. Multiple warehouses support CSOS orders across the country.
- **Delivery**
